

nanoflann::load\_value

```
graph LR; A[nanoflann::load_value] --> B[nanoflann::KNNResultSet::size];
```

The diagram consists of two rectangular boxes connected by a dark blue arrow pointing from left to right. The left box has a light gray fill and a black border, containing the text 'nanoflann::load\_value'. The right box has a white fill and a black border, containing the text 'nanoflann::KNNResultSet' on the top line and '::size' on the bottom line.

nanoflann::KNNResultSet
